

Sabre

**A performance floodlight,
the intelligent choice**

Performance floodlighting

Introducing Sabre, a slim and low glare range of floodlights with integral CMS and market-leading efficacy. Sabre's ultra-efficient optics provide remarkable flexibility, catering to various applications such as general purpose area illumination and architectural grazing.

Built to withstand tough environments, Sabre features a robust, maintenance-free luminaire design, ensuring optimum performance and longevity. This versatile range supports diverse lighting needs with multiple light distributions, ensuring easy installation and cost-effective replacement.

Key advantages

- Available in three size, offering one-for-one replacement up to 250W
- Can be specified with a choice of mounting options, including stirrup bracket and column post top
- Extremely reliable luminaire with an outstanding service life of over 100,000 hours
- Can be specified with a range of control options, including integral CMS [Sabre 2 & 3 only]
- Multiple LED configurations and flexible drive currents for tailored performance
- Suitable for exterior or interior applications with a choice of Diamond+ optics for precision lighting

Applications

Car parks

Building façades

Rail

Industrial sites

Sports facilities

Scales to suit your needs

Sabre is a high quality floodlighting solution offering tailored performance thanks to a range of precision optics and drive current settings. In addition, multiple LED packages are available across three luminaire sizes which feature a uniform design, providing a consistent appearance across schemes.

Sabre 1

Lumen Range
2,400 – 5,900 lm

Power Range
17 – 47 W

LED Quantity
16

Replaces
50W SON-T

Typical Applications
Architectural Detailing / Building Façades

Sabre 2

Lumen Range
3,550 – 12,600 lm

Power Range
24 – 105 W

LED Quantity
24 / 32

Replaces
100/150W SON-T

Typical Applications
Car Parks / Area Lighting / Service Yards

Sabre 3

Lumen Range
9,100 – 24,900 lm

Power Range
59 – 198 W

LED Quantity
64

Replaces
250W SON-T

Typical Applications
Industrial Areas / Goods Yards / Multi Use Games Areas

Energy efficient

Sabre offers excellent efficiency of up to 155lm/W to deliver increased energy savings over its 100,000 lifetime, resulting in a quick return on investment and a low total cost of ownership.

Precise illumination

Available with five precise optics, Sabre can deliver a range of symmetric and asymmetric distributions to ensure light is placed only where needed, helping to protect the surrounding environment.

Easy to control

From standalone controls to integral CMS options, plus a range of NEMA and Zhaga sockets, Sabre can be specified with a range of control and connectivity options to deliver light only when needed.

Built to last

Constructed from high quality materials, including durable die-cast aluminium, Sabre is IP66 rated and features clear glass glazing, helping to protect against the elements—come rain or shine.

Versatile solution

Sabre is a highly flexible luminaire which can be wall, surface or column mounted. It is also easy to install and maintain, and can be locked in tilt for accurate illumination.

Precision optics

Suitable for a wide range of applications, Sabre's high performance optics are available in a choice of five optimised distributions for extremely efficient, precision lighting control.

ASYMMETRIC

Diamond+ Optic - B1 (Narrow)

Diamond+ Optic - A1 (Medium)

Diamond+ Optic - C2 (Wide)

SYMMETRIC

Diamond+ Optic - C3 (Symmetric)

Diamond+ Optic - F1 (Flood)

Mounting options

Sabre can be mounted several ways to support a range of lighting applications. This includes wall mounted for perimeter illumination, surface mounted for facade lighting, or column mounted for area lighting.

Wall mounted

Surface mounted

Column mounted

Design features

Sabre is a feature-packed, professional lighting solution designed to support a range of applications now, and in the future.

Excellent Performance
Sabre features high quality LEDs capable of delivering up to 24,900lm, with luminaire efficacy of up to 155lm/W

Durable Construction
Sabre is manufactured from die-cast aluminium with a polyester powder coat finish for maximum protection against the elements

Control Options
Sabre is Smart City Ready and can be specified with multiple control options including a range of integral CMS solutions

Dedicated Optics
Sabre is offered with a selection of Diamond+ optics for precise beam control, supporting a range of lighting applications

Mounting Options
Sabre can be wall or surface mounted thanks to its versatile stirrup bracket. A post top column option is also available

Dark Sky Friendly
Sabre is offered with 2700K and 3000K colour temperatures and delivers 0% upward light when mounted horizontally

Tilt Lock
Sabre features a tilt adjustment of -45° to 45° in 5° increments with an easy to use locking function to ensure consistent illumination

Control options

From simple factory-set dimming to full CMS: enhance your luminaire through intelligent, connected sensors and control systems.

Wide Network Solutions
A fully scalable solution using sensors and devices for real-time control – supports asset management and monitoring through connected CMS network.

- External node connectivity
- Central Management System (CMS)
- Intelligent lighting control

Local Network Solutions
A cost-effective system that can be adapted on-site without specialised equipment – enables further energy saving optimisation and flexibility.

- Bluetooth wireless connectivity
- Individual or group scene control
- Controlled via smart device

Stand-alone Controls
Direct control in its simplest form, stand-alone systems are reliable and straightforward – ideal for basic energy saving.

- Pre-set dimming
- Daylight sensors
- Motion detectors

Zhaga Socket (top)

NEMA Socket (top)

Note: Control options not available on Sabre 1 model. Check code list for more details.

Key Features

Range of performance floodlights with three sizes offering one-for-one replacement up to 250W

Choice of mounting options, including stirrup bracket for wall and surface mounting plus column post top option

Extremely reliable luminaire with an outstanding service life of over 100,000 hours

Multiple control options, including integral CMS, plus NEMA and Zhaga socket options

Dark Sky friendly with warmer colour temperatures available and 0% ULOR (at 0° inclination)

Options

Sabre 1: (16 LEDs) for mounting at 4-6 metres

Sabre 2 (24 / 32 LEDs) for mounting at 5-8 metres

Sabre 3: (64 LEDs) for mounting at 8+ metres

Optical Control

Asymmetric - narrow (Diamond+ B1)

Asymmetric - medium (Diamond+ A1)

Asymmetric - wide (Diamond+ C2)

Symmetric (Diamond+ C3)

Wide flood (Diamond+ F1)

Lifetime

>100,000 hours L80 B10

Total Luminaire Lumens

Sabre 1: 2,400 - 5,900 lm

Sabre 2: 3,550 - 12,600 lm

Sabre 3: 9,100 - 24,900 lm

Colour Temperature

2700K / 3000K / 4000K

Colour Rendering Index

70Ra (4000K)

80Ra (2700K / 3000K)

Luminaire Efficacy

Up to 155lm/W

Drive Current

300mA - 1000mA (in 50mA increments)

Mounting

Stirrup bracket (standard)

Post top [Ø60-76mm]

Tilt / Inclination

-45° to +45° (5° increments)

Control

External switch: Time clock

Photocell: Miniature PEC or NEMA socket

Dim: Factory set dimmed / customer specified dimming

Compatible with any external CMS (7 pin Nema)

Integral CMS [Sabre 2 & 3 only]

Presence detector

Colours

RAL 7046 Mid grey

Materials

Body: High pressure die-cast aluminium

Glazing: Glass

Seals: Silicone

Finish: Polyester powder coat

Accessories

Front and rear glare shields available

Installation & Maintenance

Includes Support Tag® for easy luminaire maintenance

Operational temperature range: -40°C to +40°C

Surge protection: 10kV
